milenap7@gmail.com
- Payment:** PayPal

Course description

Our online course is aimed at adults who want to learn Polish from scratch or strengthen their current knowledge of the Polish language.

The teaching methods used are designed for the needs of foreign language learners in the new era of distance learning. Carefully selected content and materials allow the students to improve their vocabulary, writing, reading, and grammar, in addition to practicing their pronunciation, conversation, and listening comprehension.

During the courses, students not only improve their language skills, but also learn about the culture, history, and traditions of Poland, which helps them better understand the spirit of Polishness.

The course instructors are qualified teachers with experience in teaching Polish as a foreign language at every level. They are professionals who are passionate about teaching Polish and dedicated to helping their students achieve their goals.

About the manual

Polski, krok po kroku introduces students to the Polish language and culture step by step.

It is written exclusively in Polish in order to immerse learners in the new language from the beginning.

Grammar problems are introduced in context and a variety of exercises allow the student to acquire the practical aspects of difficult Polish grammar. The manual is supplemented by an exercise book.

Both the manual and exercise book come with audio CD's which provide listening exercises. Krok po Kroku also gives access to its own website with a variety of exercises, texts, and recordings.
